### D. Identify Sections of the Bill That Will Generate the Additional Workload or Cost Increase

Lines 39-52 will generate additional workload and cost increase as additional personnel will be needed at the Utah State Office of Education as well as an independent evaluator to implement the requirements of this bill. In addition, costs will increase to develop the Internet-based resource center, provide professional development and professional learning communities for teachers.

## E. Expenditure Impact Details (Ties to totals in Section C)

List and document methodology and/or assumptions used in determining need for workload and cost increase.

List number, type, and step ranges of personnel required, including benefits.

*List details of other impacted expenditure categories as shown in Section C.* 

List additional space requirements and cost associated with requirements of this bill.

(USE ATTACHMENTS IF NECESSARY.)

The \$3,850,000 will be used for up to 250 grant awards in amounts of up to \$2,500 each and up to 60 stipends in amounts of up to \$1,500 each. This appropriation will be used to hire additional personnel at the Utah State Office of Education to implement this program. At least an educational specialist and a support staff person would need to be hired to implement the requirements of this bill. The on-going funds would also be used for professional development and professional learning communities for teachers as well as an independent, qualified evaluator.

Start-up costs will include the development of a comprehensive, Internet-based resource center to provide information about high-ability students to teachers, administrators, parents, and the community.

The language in this bill should direct the USOE to create board rule to establish criteria for the grant.
